MODIFIED SANDY LOAM (natural sandy soil improved with silica sand)	25 mm	Mini roll (mt. 0,40 x 1,26); Big roll (mt. 1,20 x 9,00)	Over 9 months

Rustic and resistant Tall Fescue Lawn Gardens

It is a dark green sod of tall fescue with a medium-fine leaf texture, made from American seed varieties. Healthy, strong, and rustic lawn, easy to maintain, can be laid on all types of soil. Also excellent in gardens where lawn is mowed with robots

Product advantages

- ✓ Stands out for the density and finesse of its leaves associated with an intense and brilliant dark green color
- ✓ Recommended for pre-roughs around the putting greens on golf courses, it highlights the target areas with its dark leaf color. By being relatively low mowed, does not punish the player
- ✓ Very strong sod; after laying has an immediate and excellent adaptability to poor soil conditions, to drought and to temperature variations
- ✓ Resistant to Brown Patch and Pythium, requires few chemical treatments. Tolerates shade
